Awais Ali

Software Engineer | Full Stack Developer

Lahore, Pakistan | awais6javaid@gmail.com | +92 335 6620397 | LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Software Engineer with 2+ years of experience designing, building, and deploying production-ready web applications using React.js, Next.js, Node.js, NestJS, Express.js, and PostgreSQL. Proven track record delivering scalable REST APIs, responsive user interfaces, secure authentication systems, and database-driven applications for client-facing and internal products. Skilled in performance optimization, API integration, and end-to-end software development lifecycle management within Agile teams. Adept at leveraging modern development practices and AI-assisted tooling to accelerate delivery without compromising code quality.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend Development: React.js, Next.js, Redux Toolkit, Tailwind CSS, Responsive Web Design
Backend Development: Node.js, Express.js, NestJS, RESTful API Development
Databases: PostgreSQL, MongoDB, SQLite, Supabase
Version Control & Collaboration: Git, GitHub, GitLab, Jira, Agile/Scrum Methodology
Development & Deployment Tools: Postman, Vercel, Payload CMS, CI/CD Basics
AI-Augmented Development: ChatGPT, Claude Code, GitHub Copilot, Cursor, Codex, Gemini

Professional Experience

Software Engineer, Exeonic — Jan 2025 – Present

- Developed and contributed to **5+ full-stack web applications** using MERN stack, Next.js, and NestJS for live client and internal projects.
- Built **3+ responsive dashboards** and onboarding systems, reducing manual steps in internal workflows.
- Implemented JWT-based authentication flows and **15+ RESTful API endpoints** handling CRUD operations and client-server data integration.
- Integrated **Supabase and PostgreSQL** across multiple projects for scalable database and backend services.
- Collaborated with a cross-functional team of developers using Git, GitHub/GitLab, Jira, and Agile workflows.

Projects

Zaz Mart - E-commerce Store — zazpk.com

- Developed and deployed a production e-commerce store website live at **zazpk.com** for a real client.
- Built **15+ reusable UI components** with a focus on clean layout, responsiveness, and user experience.
- Designed product presentation and navigation flows optimized for mobile, tablet, and desktop screen sizes.
- **Tools Used:** Next.js, NestJS, Tailwind CSS, PostgreSQL

Asim Textile - Business Website — asimtextile.com

- Built **5+ website sections** covering company introduction, products/services, and contact information.
- Implemented fully responsive layouts tested across desktop, tablet, and mobile devices.
- Integrated Payload CMS for content management, enabling the client to independently update products and business information.
- **Tools Used:** Payload CMS, Next.js, Tailwind CSS, SQLite

Education

Riphah International University, BS in Software Engineering — Oct 2020 – Nov 2024
